

Delaware County Regional Sewer District Standard Work Rule

Subject	Effective	Supersedes	This Sheet	Total
Bottled Drinking Water	8-18-15	New	1	1

Purpose: This work rule shall establish a method of usage for bottled drinking water while working away from occupied facilities. In accordance with OSHA 1926.51, the county shall purchase and provide drinking water for the RSD employees in respect to their health and safety by maintaining proper hydration.

Work Rule:

- Bottled water shall only be used while working on projects and emergency events away from the occupied buildings;
- Bottled water shall not be used for personal hydration while at the occupied buildings, i.e., lunch and break periods;
- Each respective department manager shall be required to occasionally, or as required by the Operations Superintendent, to inventory the bottled water usage;
- All purchases of bottled water must be approved by the respective department manager;
