The period of the contract shall be one (1) year, January 1, 2024 through December 31, 2024, with the option to extend for up to two (2) additional one (1) years terms if mutually agreeable by both the County and Contractor.

The actual amount needed over the duration of the contract will vary. The County will not guarantee a minimum or maximum amount, nor shall the County be obligated to purchase a minimum amount or be limited to purchasing a maximum amount. The bid price shall apply to the actual amount of calcium nitrate that the County orders.

Supplier shall provide all necessary safety devices and equipment for unloading materials when operating on public roads and/or right of ways.

Internet Based Monitoring

The Contractor shall provide an internet based monitoring-control system to monitor fourteen (14) or more locations using calcium nitrate in the Sewer District to obtain chemical use data, tank levels, trend analysis, system alarms, dose curves, and system configuration.

The County currently uses, or will use following final construction, an internet based monitoring control system at the following locations:

- Alum Creek Pump Station
- Leatherlips Pump Station
- O’Shaughnessy Pump Station
- Verona Pump Station
- Liberty Park Pump Station

The calcium nitrate material and the monitoring control system provided by the contractor must be fully compatible with all monitoring controls (hardware and software) that are currently in place or planned to be in place at the above locations, in order to achieve the reporting listed above.

If the calcium nitrate material and/or monitoring control system proposed by the Contractor are not fully compatible with all monitoring controls (hardware and software) at the above locations, the Contractor shall provide at no cost to the County substitute and/or replacement monitoring controls (hardware and software), licensing, delivery, installation, testing, and technical support. A minimum of 40 hours of on-site and/or remote technical support shall be provided per year.

If new pump stations are built over the duration of the contract, or if the County provides additional monitoring controls at any of its other existing pump stations, the Contractor shall also provide the internet based monitoring control system to achieve the same reporting as listed above at no additional cost to the County.

The Contractor shall provide screenshots showing examples of the user interface with the bid.

Hydrogen Sulfide Data-Logging Monitors

The Contractor shall also provide two (2) continuous hydrogen sulfide data-logging monitors with an integrated cellular modem. The two monitors shall be in place at all times. The Contractor shall replace and/or change out the 2 monitors with another 2 monitors at intervals required per the manufacturer's specifications. Maximum, minimum, and average hydrogen sulfide data shall be available for any searchable time period. Historical data shall remain available on the server. A copy of the manufacturer's specifications for the monitors shall be included with the bid, along with screenshots showing examples of the user interface.

Payment

All costs for internet based monitoring, hydrogen sulfide data logging monitors, reporting, and all requirements listed above for any substitute monitoring system shall be included in the bid price.

DELIVERY

Evidence that the delivered calcium nitrate solution meets the above specifications must be included with each shipment.

The material shall be delivered by tanker trucks with a maximum volume of 4,000 gallons. The tanker trucks providing the delivery must only be used for calcium nitrate product. Tanker trucks shall be equipped to empty the hoses with air.

The Supplier is responsible for providing delivery of the bulk product to numerous sites/locations within the county. A tanker may need to off-load the product at numerous locations (500 to 4000 gallons per stop) until the tanker is empty. The Supplier shall allow for up to six stops during a routine delivery at no additional cost to the County.

The Supplier shall deliver the requested amount of material within 1 week of notice by the County. Time and date of the delivery will be scheduled by and at the convenience of the County. Delivery of materials shall be at locations as directed by the County.

PRICING

The supplier shall provide pricing for the bid items as detailed in the Bid Blank. Pricing for the calcium nitrate shall be per gallon. The concentration of the calcium nitrate received by the County from the Contractor shall contain at minimum the nitrate content per gallons submitted with the Contractor's bid, which shall at minimum be the amount required in these specifications. If any shipment of calcium nitrate contains a larger amount of nitrate-oxygen than submitted with the Contractor's bid, the County shall not be required to pay a greater amount per gallon than the bid price per gallon accepted by the County.

In some cases, it will be necessary to split deliveries between two or more locations. The supplier will provide this service at no additional cost to the County. Any charge for multiple stops shall be included in the bid price.

The County is aware that odor control processes which meet the requirements as described in this specification may be protected by United States Patents. All charges, including freight, fuel surcharges, delivery, labor, materials, equipment, software, licensing, testing, training, and technical support to provide the services as provided herein shall be included in the bid price.

Pricing shall remain firm for the period of the contract. Manufacturers' price increases or other increases in the cost of doing business may not be passed on to the County. Nor may the Contractor withdraw or cancel the contract or any part of the contract for these reasons.

Change Order Instructions

A. GENERAL INFORMATION

This document was developed to provide a uniform format for handling contract changes that affect Contract Price or Contract Times. Changes that have been initiated by a Work Change Directive must be incorporated into a subsequent Change Order if they affect Price or Times.

Changes that affect Contract Price or Contract Times should be promptly covered by a Change Order. The practice of accumulating Change Orders to reduce the administrative burden may lead to unnecessary disputes.

If Milestones have been listed in the Agreement, any effect of a Change Order thereon should be addressed.

For supplemental instructions and minor changes not involving a change in the Contract Price or Contract Times, a Field Order should be used.

B. COMPLETING THE CHANGE ORDER FORM

Engineer normally initiates the form, including a description of the changes involved and attachments based upon documents and proposals submitted by Contractor, or requests from Owner, or both.

Once Engineer has completed and signed the form, all copies should be sent to Owner or Contractor for approval, depending on whether the Change Order is a true order to the Contractor or the formalization of a negotiated agreement for a previously performed change. After approval by one contracting party, all copies should be sent to the other party for approval. Engineer should make distribution of executed copies after approval by both parties.

If a change only applies to price or to times, cross out the part of the tabulation that does not apply.

FORM OF BID GUARANTY

KNOW ALL PERSONS BY THESE PRESENT, that we, the undersigned

_____ as Principal at _____

(Address) and _____

as Surety, are hereby held and firmly bound unto the County of Delaware as Obligee in the penal sum of \$1,000.00 as part of the bid submitted by the Principal to the Obligee on (date) _____ to undertake the Project known as: _____

The penal sum, referred to herein, shall be \$1,000.00, incorporating any additive or deductive alternate Bids made by the Principal on the date referred to above to the Obligee, which are accepted by the Obligee. For the payment of the penal sum well and truly to be made, we hereby jointly and severally bind ourselves, our heirs, executors, administrators, successors and assigns.

THE CONDITION OF THE ABOVE OBLIGATION IS SUCH, that whereas the above-named Principal has submitted a bid on the above-referred to project;

If the Obligee accepts the bid of the Principal, and the Principal, within ten days after the awarding of the contract, enters into a proper contract in accordance with the bid, plans, details, specifications and bills of material, which said contract is made a part of this bond the same as though set forth herein, then this obligation shall be void; otherwise the same shall remain in full force and effect; it being expressly understood and agreed that the liability of the Surety for any and all claims hereunder shall in no event exceed the penal amount of this obligation as herein stated.

THE SAID Surety hereby stipulates and agrees that no modifications, omissions or additions, in or to the terms of said contract or in or to the plans and specifications, therefore, shall in any way affect the obligations of said Surety on its bond, and it does hereby waive notice of any such modifications, omissions or additions to the terms of the contract or to the work or to the specifications.
